► About Us

EBNER MEDIA GROUP

– Package Printing Division

The EBNER MEDIA GROUP, Ulm, Germany, is a leading media company for specialist magazines and portals as well as special interest publications. It supports with tailor-made content and interactive platforms professionals in their daily work and enthusiasts in pursuing their passions. The EBNER MEDIA GROUP is organized on a decentralized basis. There are five locations in Germany alone, and there are a total of ten more worldwide locations.

In the target group-oriented business units of package printing and publication printing alone, there are four published periodicals for the printing industry. With **Flexo+Tief-Druck** and **Etiketten-Labels** as well the specials **Digital Printing today**, **Funktionales Drucken** (= Functional Printing), **Extrusion & Converting** and **Gravure Global** we focus on all areas of package and label printing, extremely dynamic niches in the printing industry - in print, digital or face-to-face communication. Nobody knows, reaches or inspires the people in our target groups like us.

First-class specialist journalism - and much more ...

With our know-how and our passion for topics and details, we are indispensable for our readers. Our knowledge advantage creates added value. Your customers read and use the content of our specialist publications and portals intensively: **Flexo+Tief-Druck**, **Etiketten-Labels**, **Digital Printing today**, **Funktionales Drucken** (= Functional Printing), **Extrusion & Converting** and **Gravure Global** – print, online and in social media:
2 portals, 2 specialist magazines, 4 specials and special newsletters
– here you can reach your target group directly!

► Flexo+Tief-Druck – Profile

Title Flexo+Tief-Druck

Short description Leading German-language magazine for package printing, converting and special applications. Flexo+Tief-Druck provides comprehensive and reliable information as well as up-to-date reporting on all areas of modern flexo and gravure package printing and converting. For over 30 years with Flexo+Tief-Druck we have been reaching all companies and professionals in these market segments: flexographic and rotogravure printers, print buyers, creative agencies, production agencies, converters, suppliers of substrates, inks and consumables, printing machine manufacturers, manufacturers of converting systems as well as software suppliers and trading companies.

Publication frequency 6 issues per year

Publication size 210 mm width x 297 mm height (DIN A4)

Launched in 1990

► Industry Opinions

„In times when we have to think twice before spending a marketing euro, we need planning security that our actions also reach the right target groups. The editorial environment of Flexo+Tief-Druck in combination with the different online and offline touch points helps us to minimize wastage and to place our messages in the best possible way.“

Alexandra List
*Marketing Manager HP Digital Printing Systems
HP Indigo Germany*

“Flexo+Tief-Druck is an institution in our industry and impresses with interesting articles that are close to what is happening on the market. As a system supplier for the printing industry, we really appreciate them as a partner and source of information, both digital and analogue.“

Franziska Kirpal
*Business Development Manager
Flexo Print & Paper Region DACH
tesa SE*

“As a specialised equipment manufacturer, we appreciate the editorial mix of technology and the commercial aspects of the printing and converting sectors covered by Flexo+Tief-Druck. The combination of in-house knowledge and the skilful use of contributing experts makes for an authoritative source of information that sets this publication apart from others on the market.“

Jeannette Woodman
*Marketing Director
Vetaphone A/S*

“The felicitous mix of reports, technical articles, new products as well as market and industry trends provides a topical and comprehensive overview and makes Flexo+Tief-Druck an important source of information around package printing.“

Elisabeth Braumann
*Public Relations
Windmüller & Hölscher KG*

“Especially for young, innovative companies like TLS Anilox GmbH, Flexo+Tief-Druck offers exactly the right platform to convey the more than interesting advantages of TeroLux anilox roller coating to readers and future users. In this way, even small companies can successfully place a product.“

Andreas Willeke
*CEO
TLS Anilox GmbH*

“Flexo+Tief-Druck and Doneck Network have a common denominator. The specialist magazine and the printing ink manufacturer focus and concentrate on flexo and gravure in the printing industry. We think that's good. We also appreciate the well-researched journalism on a professional level. We think that makes the difference today!“

Rita Knippel
*Marketing & Communications Manager
Doneck Network Luxembourg*

▶ Editorial Programme 2022 (as of January 25, 2022)

1-2022 (February)

Publication date:
3.02.2022

Editorial deadline:
11.01.2022

Advertising Closing:
18.01.2022

- Market development: package printing under rapidly changing (framework) conditions
- Networked / digital printing process - from data acceptance to printing forme production to print approval
- The latest developments in flexographic and gravure forme production
- Flexo and gravure printing machines for the current requirements in package printing

■ Special Functional Printing - Intelligent Labels & Packaging (n° 1/2022)

- **Outlook on the fair LOPEC:** current trends, exhibitors and their innovations
- Printed electronics - an exciting market with great growth potential
- Application processes for functional printing
- Augmented Reality: "Communicate with me!" – „Intelligent“ packaging at the point of sale
- Security labels / counterfeit protection / RFID / NFC

Special Section **Funktionales Drucken**

Important Industry Events

LOPEC,
Munich / FRG: 23.-24.03.2022

2-2022 (March)

Publication date:
10.03.2022

Editorial deadline:
15.02.2022

Advertising Closing:
22.02.2022

- **Fair issue ICE Europe / CCE International** (trends, new products, trade fair information)
- Fiber-bound packaging substrates (paper, corrugated cardboard etc.) – requirements in printing and converting
- Web monitoring and inspection systems – latest developments / solutions
- Printing inks (colour systems, colour viscosity measurement, colour dosing, colour measurement, residual ink management)
- Environmentally friendly printing inks and varnishes / barrier coatings / waxes
- Printing unit / application system (anilox rollers / -sleeves, printing forme, doctor blade, chamber doctor blade system, ink supply)
- Resource-saving work in the pressroom (storage systems, ink kitchen, cleaning systems, cleaning agents, ink disposal, solvent recycling, exhaust air purification)

■ Special Extrusion & Converting (n° 1/2022)

- Production (extrusion) of recyclable packaging films
- Paper substrates: change of properties through coating and metallizing
- Lamination / adhesive application: new generation of sustainable adhesives
- More than just roll packaging: final inspection / web inspection on the slitter

► Special Functional Printing – Intelligent Labels & Packaging

Functional printing goes beyond the „Intelligent Labels“, which we had previously considered in isolation. From 2022 we will deal with this topic in detail and across industries for the label and package printing. Because intelligent labels and packaging are becoming increasingly important. They let us pay cashless, transmit product information, support production, logistics and warehousing. Many other areas of application suggest that functional printing will lead to new business models for label and packaging printers. In our special, we highlight the different characteristics of functional printing, the suitable printing processes and the fields of application in practice.

► in Flexo+Tief-Druck 1-2022 (February) and Etiketten-Labels 1/2022 (February)

Special Functional Printing - Intelligent Labels & Packaging (n° 1/2022)

- **Outlook on the fair Lopec:** current trends, exhibitors and their innovations
- Printed electronics - an exciting market with great growth potential
- Application processes for functional printing
- Augmented Reality: „Communicate with me!“
 - „Intelligent“ packaging at the point of sale
- Security labels / counterfeit protection / RFID / NFC

▶ B2B Decision-maker analysis

Study of the Deutsche Fachpresse on information behavior and media use of professional decision-makers

Use of B2B information sources by age (Professional decision-makers)

* Websites, Social Media, Newsletter, Apps

Specifications in %
 ■ Use in the last 12 months
 ■ dito/Group "up to 39 years"

96 %

... of the 7.4 million
professional decision-
makers use specialized media

Printed and digital specialized media are the most important job-related sources of information for professional decision-makers. Top decision-makers use these even more intensively than the entire group. As before, specialized magazines and digital specialized media are in the intensity of use before the digital offers of the companies, who rank third.

78 %

... find advertising in
specialized media useful

Specialized media are perfect advertising media, as advertising is perceived by readers as an important content. It is not only useful, advertising also creates a positive image of the advertising companies among the readers and users. Anyone who advertises in specialized media confirms its relevance in the market and reinforces it in a positive way.

97 %

... of all decision-makers
under the age of 40
use specialized media

Specialized media usage is not a matter of age. Even professional decision-makers under the age of 40 use specialized magazines and digital specialized media offers intensively.

GMA
DIGITAL DIGITAL PRINTER WITH
LOW ENVIRONMENTAL IMPACT

RAINBOW 40
EOL SYSTEMS LAMINATOR WITH
HIGHEST ENERGY CRITERIA

Besuchen Sie Uteco auf der Print4All!

In Halle 18 - Stand 022 / 021 präsentiert Uteco Group zwei neue Maschinen, Live on Stage:

- **GMA** - Die EB-Version ist die neueste Ausführung der bereits auf der Labeltec Europe 2017 erstmals gezeigten hybriden Schmelzglas-UV-Digitaldruckmaschine.
- **Rainbow 40** - Diese kontinuierliche Klebdruckanlage ist ausgelegt für alle Aufgabengebiete und ausgestattet mit einem effektiven System zur Bahnpassungsschleife, welches für die Herstellung von Lebensmittelverpackungen geeigneter Substrate.

Parallel zur Fachmesse Print4All findet vom 30.-31. Mai eine OpenHouse Veranstaltung im Produktionsbereich 2 sowie im Technologiecenter ConventDrome statt. Besucher haben dort die Möglichkeit, das Uteco-Portfolio an Flexodruckmaschinen in den verschiedenen Fertigungsstufen, sowie bei der Erneuerung und im Druckbetrieb zu sehen. Darüber hinaus werden auch Teilbauelemente sowie Bauteilgruppen und Komponenten gezeigt.

Als Innovations-Engineer erheben die Besucher des OpenHouse die Wertigkeiten der hybriden, mit Continuous Inkjet Stream-Technologie (CIJ) ausgestatteten Verpackungsdrukkmachine **Supplies EVO**. Die individuell konfigurierbare Maschine verbindet sich wesentlich leichter, flexibler und vorwiegend dank des universellen Klebstrahls, der die neuen Teilbauelemente **NX3 300** ist ebenfalls für den Ersatz veralteter Faktoren geeignet, deren aktuelle Varianten in Zusammenarbeit mit unseren Herstellern zu einer „Green Technology“ weiterentwickelt wurde.

We are happy to advise you in detail and help you achieve your marketing goals!

▶ General Terms and Conditions

1. Exclusive scope, agreement

1.1 In its own name and for its own account, the Ebner Media Group GmbH & Co. KG, Karlstrasse 3, 89073 Ulm, Germany (hereinafter referred to as "publisher") markets advertisements for the newspapers and magazines that it publishes.

1.2 The following terms and conditions are exclusively valid for all contractual relationships between the publisher and the customer (hereinafter referred to as "customer") with regard to the placement of advertisements. The validity of any general terms and conditions of the customer is expressly excluded, even if the publisher does not contradict in individual cases.

1.3 The publisher agrees to comply with the regulations of the minimum wage (MiLoG). This is also valid, insofar as the publisher orders other contractors with attendances.

2. Services; Submission for publication; Completion

2.1 In the context of these terms and conditions, an "advertising order" is a contract by an advertiser or other purchaser of advertising space for the publication of one or more advertisements in a publication for the purpose of dissemination.

2.2 In case of doubt, advertisements are to be submitted for publication within one year after the signing of the contract. If a contract grants the right to submit individual advertisements, then the contract is to be completed within one year after the publication of the first advertisement, assuming that the first advertisement was submitted and published during this year.

2.3 Upon signing an advertising contract, the customer also has the right to submit, within the agreed or one-year period according to paragraph 2.2, additional advertisements beyond the volume specified in the contract.

2.4 If an order is not completed due to reasons for which the publisher is not responsible, then, notwithstanding any other legal obligations, the customer shall pay the publisher the difference between the contractually granted discount (taking into consideration the pre-defined total volume) and the actual total volume (discount adjustment charge). The payment shall not apply if the failure is due to force majeure within the risk area of the publisher.

3. Calculation of volumes

3.1 For the calculation of volumes, text millimeter lines are converted according to price into advertisement millimeters.

3.2 The publisher must receive orders for advertisements and third-party supplements which are intended for publication in specific numbers, in specific issues or in specific places within the publication before the closing date so the publisher can notify the customer, prior to the advertising deadline, that the order cannot be completed in this way. Classified ads will be printed in the relevant section without the need for express agreement.

3.3 Text advertisements are advertisements bordered on at least three sides by text and not by other advertisements. Advertisements that are not identifiable as advertisements due to their layout can be clearly labeled as such by the publisher with the word "advertisement".

4. Publisher's right of refusal; Orders for supplements

4.1 The publisher reserves the right to refuse advertising orders, individually submitted advertisements in the context of a signed contract or orders for the insertion of supplements due to the contents, the origin or the technical form according to uniform, objectively justified principles of the publisher if their content violates laws or legal regulations. This also applies to orders placed with branches, reception points or representatives.

4.2 Orders for supplements are binding on the publisher after submission of a sample of the supplement and its approval. Supplements which, due to their format or layout, give the reader the impression that they are part of the newspaper or magazine, or which contain third-party advertisements, will be accepted subject to change. The customer will be notified immediately if the publisher decides to refuse an order.

5. Obligations of the customer

5.1 The customer is responsible for assuring the timely delivery of the advertising copy and the flawlessness of the printing documents or supplements. If advertising orders, changes in the scheduling or the desired issue, textual corrections and/or cancellations are communicated via telephone, the publisher assumes no liability for same. If printing documents are obviously unsuitable or damaged, the publisher shall immediately request replacements for same. Within the limitations imposed by the printing documents, the publisher guarantees the standard of printing quality customary for the publication.

5.2 Cancellations must be made in writing. If an order is cancelled, the publisher can bill the customer for the costs incurred due to typesetting.

5.3 The customer is obliged to bear the costs of publication of a reply which refers to actual assertions in the published advertisement. These costs will be calculated according to the currently applicable advertising rate. This applies only in the event that the publisher is obliged to print the reply.

5.4 Exclusion of competition cannot be guaranteed. Placement requests are subject to availability of space. The publisher reserves the right to change previous placements due to reasons related to the page layout; such changes shall not affect the validity of the order. The publisher likewise reserves the right to change branch-of-industry designations.

5.5 If the printed advertisement is wholly or partly illegible, incorrect or incomplete, the customer has a claim to price reduction or to a perfectly corrected replacement advertisement, but only to the extent to which the purpose of the original advertisement was impaired. If the publisher fails to publish the replacement advertisement within an agreed and reasonable time period or if the replacement advertisement is again flawed, then the customer has a right to a price reduction or to cancellation of the order.

6. Liability of the publisher

The publisher assumes unlimited liability for damages caused by his legal representatives or executive employees and for damages caused deliberately by other agents acting on his behalf;

in the event of a negligent breach of duty, the publisher is also liable for damages arising from injury to life, body or health. The publisher is liable for product liability damages in accordance with the provisions of the Product Liability Act. The publisher is liable for damages caused by his legal representatives or executive employees arising from the breach of cardinal obligations; cardinal obligations are the essential duties which form the basis of this contract, which were crucial for the completion of this contract, and upon the fulfillment of which the licensee can rely. If the publisher has breached these cardinal obligations due to slight negligence, then his liability is limited to the amount that was predictable for the publisher at the time when each service was rendered. The publisher is liable for the loss of data only up to the amount that would have been incurred for recovery of the data if proper and regular back up of the data had been undertaken. Further liability of the licensor is excluded.

7. Proofs; Calculation

7.1 Proofs will be provided only by request. The customer bears the responsibility for the correctness of the returned proofs. The publisher has the right to expect the corrections to be communicated to him within the period specified when the proofs were sent to the customer.

7.2 If no special instructions about the size and dimensions are given, the calculation will be based on the customary and actual printed height of the advertisement.

8. Invoicing; Delay; Voucher Copy of the Advertisement

8.1 If the customer has not paid in advance, then the invoice will be sent immediately or no later than fourteen days after the publication of the advertisement.

8.2 Unless a different payment period or prepayment has been agreed in individual instances, the invoice must be paid within the period specified in the price list. This period begins with the customer's receipt of the invoice. Any discounts for early payment will be granted as specified in the price list.

8.3 Interest and collection fees will be charged if the payment is delayed or deferred. In the event of a delayed payment, the publisher can delay completion of the current order until the payment is received and can demand prepayment for the remaining advertisements.

If there is reasonable doubt about the solvency of the customer, the publisher has the right, also during the running time of an advertising contract and without consideration of an originally agreed payment date, to make the publication of further advertisements contingent upon the advance payment of the amount and the settlement of outstanding invoices.

8.4 If so desired by the customer, the publisher will deliver a voucher copy of the published advertisement together with the invoice. Depending on the nature and size of the order, the delivered voucher copy will consist of tear sheets, full pages or complete copies of the issue that carried the advertisement. If a voucher copy can no longer be obtained, its place shall be taken by a legally binding certification from the publisher averring that the advertisement was indeed published and disseminated.

9. Cost; Price reduction

9.1 The customer shall bear the expenses of preparing ordered printing blocks, stencils and drawings, as well as the expenses of significant changes to the originally agreed versions desired by the customer or for which the customer is responsible.

9.2 In case of a contract covering several advertisements, a decrease in circulation can serve as the basis for a claim to price reduction if the average circulation specified in the price list or otherwise mentioned is not achieved in the overall average of the year beginning with the scheduled publication of the first advertisement or, in the event that no circulation volume is mentioned, if the average sold circulation (for special-interest magazines: the average actually distributed circulation) is less than the average sold circulation during the previous calendar year. A decrease in circulation is a shortcoming which justifies a price reduction only to following extents:

- 20% price reduction for circulation up to and including 50,000 copies
- 15% price reduction for circulation up to and including 100,000 copies
- 10% price reduction for circulation up to 500,000 copies
- 5% price reduction for circulation of 500,000 or more copies.

Additionally, claims for price reduction are excluded if the publisher has informed the customer of the reduced circulation so far in advance that the customer could cancel the order prior to the publication of the advertisements.

10. Classified Advertisements with Box Numbers; Documents; Storage

10.1 For classified advertisements with box numbers, the publisher will exercise the due diligence incumbent upon a prudent businessman to assure the safekeeping and timely forwarding of offers. Registered and express letters in response to classified advertisements with box numbers will be forwarded by normal post.

10.2 The publisher will return valuable documents without being obliged to do so. Letters which exceed the permissible DIN C 4 format (weight: 500 grams), parcels containing merchandise, books or catalogues, and small packages will not be forwarded and their delivery will be refused. However, in exceptional instances, acceptance of delivery and forwarding can be agreed if the customer pays the costs and/or fees incurred for same.

10.3 In the interest of the customer and for his protection, the publisher reserves the right to open and to inspect incoming letters or parcels in order to preempt or eliminate any misuse of box-number services. The publisher is not obliged to forward business proposals or brokerage offers. Printing documents will be returned only at the specific request of the customer. The obligation to keep such documents ends three months after the expiration of the order.

11. Place of Performance and Place of Jurisdiction; Applicable Law

11.1 In business transactions with merchants, legal entities or special funds under public law, the place of performance and the place of jurisdiction is the head office of the publisher. However, the publisher also has the right to sue at the court of law which is responsible for the region in which the customer's head office is located.

11.2 German law applies with the exclusion of the UN Sales Convention.
