► About Us

EBNER MEDIA GROUP

– Package Printing Division

The EBNER MEDIA GROUP, Ulm, Germany, is a leading media company for specialist publications and portals as well as special interest publications. It supports with tailor-made content and interactive platforms professionals in their daily work and enthusiasts in pursuing their passions. The EBNER MEDIA GROUP with its more than 30 strong brands is organized decentrally at 4 locations in Germany.

In the target group-oriented business units of package printing and publication printing alone, there are four published periodicals for the printing industry. With **VerpackungsDruck** (formerly Flexo+Tief-Druck) and **Etiketten-Labels** as well the specials **Digital Printing today**, **Wellpappe, Faltschachteln & Papier**, **Packaging Films & Converting** and **Gravure Global** we focus on all areas of package and label printing, extremely dynamic niches in the printing industry - in print, digital or face-to-face communication. Nobody knows, reaches or inspires the people in our target groups like us.

First-class specialist journalism - and much more ...

With our know-how and our passion for topics and details, we are indispensable for our readers. Our knowledge advantage creates added value. Your customers read and use the content of our specialist publications and portals intensively: **VerpackungsDruck** (formerly Flexo+Tief-Druck), **Etiketten-Labels**, **Digital Printing today**, **Wellpappe, Faltschachteln & Papier**, **Packaging Films & Converting** and **Gravure Global** – in print and digital, online and in social media:
2 portals, 2 specialist magazines, 4 specials and special newsletters
– here you can reach your target group directly!

► VerpackungsDruck – Profile

Title **VerpackungsDruck & Converting**
(formerly Flexo+Tief-Druck)

Short description Leading technical magazine for the entire process chain in package printing and converting. VerpackungsDruck provides comprehensive and reliable information as well as up-to-date reporting on all areas of modern package printing and converting. For over 35 years with VerpackungsDruck we have been reaching all companies and professionals in these market segments: Packaging printers, print buyers, creative agencies, production agencies, converters, suppliers of substrates, inks and consumables, printing machine manufacturers, manufacturers of converting systems as well as software suppliers and trading companies.

Publication frequency 6 issues print + digital per year

Publication size 210 mm width x 297 mm height (DIN A4)

Launched in 1990

Circulation 2,600 copies

Classified ads	28.00 pages	= 6.25%
Editorial content	333.46 pages	= 74.43%

► Industry Opinions

"A leading global supplier to the packaging industry, BOBST has maintained a partnership with VerpackungsDruck as a trusted media partner and key trade publication for many years. With a commitment to technical journalism, it serves as an important platform for the packaging communities, both as an independent news outlet and a source of specialist information."

Désirée Bariatti

*Regional Marketing & Communications Manager DACH
BOBST*

"VerpackungsDruck is an institution in our industry and impresses with interesting articles that are close to what is happening on the market. As a system supplier for the printing industry, we really appreciate them as a partner and source of information, both digital and analogue."

Franziska Kirpal

*Business Development Manager
Flexo, Print & Paper Region DACH
tesa SE*

"SCREEN Europe's partnership with VerpackungsDruck & Converting provides an invaluable platform to share the latest news regarding our digital printing technology with brand owners, converters and industry experts, driving innovation throughout the entire packaging converting sector."

Juan Cano

*Director Business Development Flexible Packaging
SCREEN Europe*

"What could be a better endorsement of VerpackungsDruck than 35 years of industry experience? At Polymount, we have appreciated the in-depth reporting, the interesting insights into our market, and the excellent communication with the editorial team and sales department for many years. I still consider VerpackungsDruck essential reading in our industry. I look forward to browsing through each issue at my leisure."

Nico Jasper

*Regional Sales Director
Polymount DACH GmbH*

"As a company driven by innovation, SOMA values VerpackungsDruck as a trusted source of knowledge and dialogue in the printing world. Over the years, our close cooperation with this respected medium has provided a professional space to share our developments, learn from others, and connect with partners who are equally focused on advancing flexographic technology."

Petra Marešová

*PR & Media Manager
SOMA spol. s r.o.*

"As a specialised equipment manufacturer, we appreciate the editorial mix of technology and the commercial aspects of the printing and converting sectors covered by VerpackungsDruck. The combination of in-house knowledge and the skilful use of contributing experts makes for an authoritative source of information that sets this publication apart from others on the market."

Jeannette Woodman

*Marketing Director
Vetaphone A/S*

▶ Editorial Programme 2026 (as of December 4, 2025)

Important Industry Events

1-2026 (February)

Publication date:
5.02.2026

Editorial deadline:
13.01.2026

Advertising closing:
20.01.2026

- **Packaging in transition – How new conditions change everything**
 - Consistent print quality through digitisation (inspection and control systems, measuring instruments, proofing, print release process, software solutions)
 - Artificial Intelligence (AI), networking and automation in prepress, printing forme production and print production
 - Intelligent logistics in the printing periphery (cleaning systems, ink disposal, ink kitchen, storage systems)
 - Retrofit / maintenance / support of package printing machines (flexo, gravure, offset and digital printing)
 - Product protection and security: How sophisticated packaging protects against counterfeiting and product piracy
- **Special Wellpappe, Faltschachteln & Papier (Corrugated Board, Folding Boxes & Paper) n° 1/2026**
 - Production of flexible packaging from fiber-bound substrates with defined barrier properties
 - Modern folding box production in sheet-fed offset, flexo, gravure, and digital printing
 - Postprint and preprint in corrugated board printing (digital and analogue printing machines)
 - Die-cutting technology and die-cutting tools (laser die-cutter, flatbed die-cutter, rotary die-cutter)
 - Applying barrier coatings without pinholes: Is this possible?

Special Section

Wellpappe, Faltschachteln & Papier

23rd Inno Meeting: „Flexpack 2030“, Osnabrueck/DE:
24.-25.02.2026

LOPEC, Munich/DE:
25.-26.02.2026

2-2026 (March)

Publication date:
19.03.2026

Editorial deadline:
24.02.2026

Advertising closing:
3.03.2026

- Printing machines in packaging production: Integration into digital production processes
- New ways in printing forme production (flexo, offset and gravure printing)
- Sustainable printing inks and varnishes (ink systems, ink dosing, colour measurement, residual ink management)
- Efficient interaction of the components in the printing unit / application system (printing forme, anilox roller / sleeve, doctor blade, chamber doctor blade, ink supply, ink / water balance)
- **Special Packaging Films & Converting (n° 1/2026)**
 - Film technology: Extrusion, pre-treatment, lamination, stretching
 - Coating (priming, varnishing, metallizing)
 - Haptic finishing: Embossing and high varnish applications
 - Winding and splicing correctly: Splicing tapes, winding shafts, winders
 - Hot and cold foil stamping

Special Section

Packaging Films & Converting

3-2026 (May)

Publication date:
30.04.2026

Editorial deadline:
7.04.2026

Advertising closing:
14.04.2026

- **Interpack highlights: Preview and new products**
 - Package printing machines (offset, gravure, flexo) and converting systems
 - Anilox and coating rollers: Transfer defined amounts of ink and varnish
 - Optimisation potential in prepress and forme production (automation, digitisation, AI and algorithms)
 - Resource-saving production of flexo and offset plates as well as gravure formes and embossing rollers
 - Consistent print quality: Inspection systems, electrostatics and surface cleaning in printing and converting
- **Special Digital Printing today (n° 1/2026)**
 - Inkjet printing on films and fiber-based printing materials
 - Print preparation: Data handling, print heads, colour management
 - Colour accuracy / quality assurance in digital printing
 - Digital converting (including laser die-cutting, priming and varnish application)

Special Section

Digital Printing today

Interpack, Dusseldorf/DE:
7.-13.05.2026

Important Industry Events

4-2026 (July)

Publication date:
15.07.2026

Editorial deadline:
22.06.2026

Advertising closing:
29.06.2026

- Digital and conventional in combination: Hybrid printing machine concepts for different packaging solutions
- Retrofit / maintenance / support of printing machines , die-cutters, embossing /coating machines, slitter rewinders
- Digital colour communication and colour management in package printing
- Standardisation and quality assurance in the package printing process (digitisation and automation)
- Sleeves and adapter sleeves for high-speed flexographic printing
- Plate mounting in flexographic printing (plate adhesive tapes, self-adhesive mounting sleeves, automatic mounting devices, integration into the printing workflow)

Special Section **Wellpappe, Faltschachteln & Papier**

■ **Special Wellpappe, Faltschachteln & Papier (Corrugated Board, Folding Boxes & Paper) n° 2/2026**

- Sustainable printing and finishing of corrugated board and folding boxes - the challenges
- Inline and offline die-cutting of corrugated board, cardboard and folding boxes (machines and tools)
- Logistics in corrugated cardboard and folding box production: Palletising and robot systems
- Printing and converting of flexible paper packaging
- Which paper quality for which flexible packaging?

Loupe Americas,
Chicago, IL/USA:
15.-17.09.2026

5-2026 (September)

Publication date:
22.09.2026

Editorial deadline:
27.08.2026

Advertising closing:
3.09.2026

- Fully automated offset plate production in package printing
- Tailor-made flexo and gravure formes for flexible packaging, corrugated board, folding boxes and container printing
- Screening of flexographic printing plates for difficult substrates
- No more proofing? Digital inspection of chrome-plated gravure printing formes: Is that possible?
- The right doctor blade for printing applications and coatings

■ **Special Packaging Films & Converting (n° 2/2026)**

- Blow extrusion, extrusion coating and coating machines
- Slitter rewinders: Assembly of sensitive, finished packaging substrates
- Coating processes: Advantages and disadvantages, areas of application, coating systems
- Sustainable lamination (adhesives, application systems, drying)

Special Section **Packaging Films & Converting**

GRA International Gravure Days,
Munich/DE:
7.-9.10.2026

DFTA Technical Conference, ???:
4.-5.11.2026

6-2026 (November)

Publication date:
12.11.2026

Editorial deadline:
20.10.2026

Advertising closing:
27.10.2026

- Prepress flexo, offset and gravure printing (colour management, software, proofing, fixed colour palette, workflow)
- Inks and varnishes for sustainable package printing - new formulations
- Finishing in package printing (effect colours, varnishing, embossed foil printing)
- Drying / curing of inks and varnishes
- Anilox and coating rollers: Defined transfer of large quantities of (barrier) varnish
- Printing peripherals: Ink kitchen, washing machines, distillation systems, storage and logistics systems

■ **Special Digital Printing today (n° 2/2026)**

- Digital printing: Absorbent and non-absorbent packaging substrates and rigid packaging (container printing)
- Quality assurance in digital printing: Measuring and specifying
- Practice-tested business concepts with digital printing
- Integration of digital printing into existing production environments

Special Section **Digital Printing today**

11th Expertentreff
Verpackungsdruck,
???:
N.N

We value your opinion! Please contact editor **Ansgar Wessendorf** at **wessendorf@ebnermedia.de** and let him know where we can improve, what topics concern you and what you would like to read about. We look forward to your most appreciated suggestions!

► **Special Wellpappe, Faltschachteln & Papier** (Corrugated Board, Folding Boxes & Paper)

Twice a year, we dedicate a special section, a „magazine-within-a-magazine“, to the production of packaging made from fiber-bound substrates. The special section appears

- in **VerpackungsDruck 1-2026 (February)**
- in **VerpackungsDruck 4-2026 (July)**

These are the topics the editorial team has planned for the 2026 specials:

- Production of flexible packaging from fiber-bound substrates with defined barrier properties
- Modern folding box production using sheet-fed offset, flexo, gravure, and digital printing
- Postprint and preprint in corrugated board printing (digital and analogue printing machines)
- Die-cutting technology and die-cutting tools (laser die-cutter, flatbed die-cutter, rotary die-cutter)
- Applying barrier coatings without pinholes: Is this possible?
- Sustainable printing and finishing of corrugated board and folding boxes - the challenges
- Inline and offline die-cutting of corrugated board, cardboard, and folding boxes (machines and tools)
- Logistics in corrugated cardboard and folding box production: Palletising and robot systems
- Printing and finishing of flexible paper packaging
- Which paper quality for which flexible packaging?

Is your topic not included?

Please contact editor

Ansgar Wessendorf at
wessendorf@ebnermedia.de.

We welcome your suggestions!

► Special Packaging Films & Converting

The current challenges in film production and converting:

- Extrusion ■ Packaging films ■ Recyclability ■ Pre-treatment of films ■ Coating, priming and metallizing ■ Lamination
- Slitting machines ■ Technical rollers ■ Winding and splicing

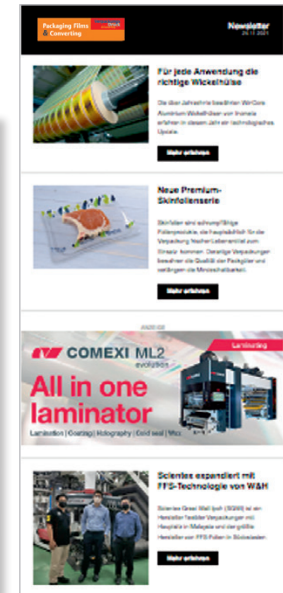

- in VerpackungsDruck 2-2026 (March)
- in VerpackungsDruck 5-2026 (September)

Twice a year we dedicate ourselves to the entire process from extrusion to further processing of packaging films with the **Special Packaging Films & Converting**, a “magazine-within-a-magazine”.

Accompanying we send out the **Special Newsletter Packaging Films & Converting** to a separate address mailing list every month. Here you can present your company and your products with editorial articles, an Online Advertorial or banner advertising.

Language: German – DACH markets
 Dispatch: monthly, 12 times per year
 Newsletter subscribers: 910
 (as of October 2025)

Formats	Prices
Online Advertorial / Native Text Ad	
Extensive, prominently placed article, which is placed online on flexotiefdruck.de and teased in the Special Newsletter on position 1.

▶ B2B Decision-maker analysis

Study of the Deutsche Fachpresse on information behavior and media use of professional decision-makers

Use of B2B information sources by age (Professional decision-makers)

* Websites, Social Media, Newsletter, Apps

Specifications in %
 ■ Use in the last 12 months
 ■ dito/Group "up to 39 years"

96 %

... of the 7.4 million
professional decision-
makers use specialized media

Printed and digital specialized media are the most important job-related sources of information for professional decision-makers. Top decision-makers use these even more intensively than the entire group. As before, specialized magazines and digital specialized media are in the intensity of use before the digital offers of the companies, who rank third.

78 %

... find advertising in
specialized media useful

Specialized media are perfect advertising media, as advertising is perceived by readers as an important content. It is not only useful, advertising also creates a positive image of the advertising companies among the readers and users. Anyone who advertises in specialized media confirms its relevance in the market and reinforces it in a positive way.

97 %

... of all decision-makers
under the age of 40
use specialized media

Specialized media usage is not a matter of age. Even professional decision-makers under the age of 40 use specialized magazines and digital specialized media offers intensively.

We are happy to advise you in detail and help you achieve your marketing goals!

▶ General Terms and Conditions

1. Exclusive scope, agreement

1.1 In its own name and for its own account, the Ebner Media Group GmbH & Co. KG, Karlstrasse 3, 89073 Ulm, Germany (hereinafter referred to as "publisher") markets advertisements for the newspapers and magazines that it publishes.

1.2 The following terms and conditions are exclusively valid for all contractual relationships between the publisher and the customer (hereinafter referred to as "customer") with regard to the placement of advertisements. The validity of any general terms and conditions of the customer is expressly excluded, even if the publisher does not contradict in individual cases.

1.3 The publisher agrees to comply with the regulations of the minimum wage (MiLoG). This is also valid, insofar as the publisher orders other contractors with attendances.

2. Services; Submission for publication; Completion

2.1 In the context of these terms and conditions, an "advertising order" is a contract by an advertiser or other purchaser of advertising space for the publication of one or more advertisements in a publication for the purpose of dissemination.

2.2 In case of doubt, advertisements are to be submitted for publication within one year after the signing of the contract. If a contract grants the right to submit individual advertisements, then the contract is to be completed within one year after the publication of the first advertisement, assuming that the first advertisement was submitted and published during this year.

2.3 Upon signing an advertising contract, the customer also has the right to submit, within the agreed or one-year period according to paragraph 2.2, additional advertisements beyond the volume specified in the contract.

2.4 If an order is not completed due to reasons for which the publisher is not responsible, then, notwithstanding any other legal obligations, the customer shall pay the publisher the difference between the contractually granted discount (taking into consideration the pre-defined total volume) and the actual total volume (discount adjustment charge). The payment shall not apply if the failure is due to force majeure within the risk area of the publisher.

3. Calculation of volumes

3.1 For the calculation of volumes, text millimeter lines are converted according to price into advertisement millimeters.

3.2 The publisher must receive orders for advertisements and third-party supplements which are intended for publication in specific numbers, in specific issues or in specific places within the publication before the closing date so the publisher can notify the customer, prior to the advertising deadline, that the order cannot be completed in this way. Classified ads will be printed in the relevant section without the need for express agreement.

3.3 Text advertisements are advertisements bordered on at least three sides by text and not by other advertisements. Advertisements that are not identifiable as advertisements due to their layout can be clearly labeled as such by the publisher with the word "advertisement".

4. Publisher's right of refusal; Orders for supplements

4.1 The publisher reserves the right to refuse advertising orders, individually submitted advertisements in the context of a signed contract or orders for the insertion of supplements due to the contents, the origin or the technical form according to uniform, objectively justified principles of the publisher if their content violates laws or legal regulations. This also applies to orders placed with branches, reception points or representatives.

4.2 Orders for supplements are binding on the publisher after submission of a sample of the supplement and its approval. Supplements which, due to their format or layout, give the reader the impression that they are part of the newspaper or magazine, or which contain third-party advertisements, will be accepted subject to change. The customer will be notified immediately if the publisher decides to refuse an order.

5. Obligations of the customer

5.1 The customer is responsible for assuring the timely delivery of the advertising copy and the flawlessness of the printing documents or supplements. If advertising orders, changes in the scheduling or the desired issue, textual corrections and/or cancellations are communicated via telephone, the publisher assumes no liability for same. If printing documents are obviously unsuitable or damaged, the publisher shall immediately request replacements for same. Within the limitations imposed by the printing documents, the publisher guarantees the standard of printing quality customary for the publication.

5.2 Cancellations must be made in writing. If an order is cancelled, the publisher can bill the customer for the costs incurred due to typesetting.

5.3 The customer is obliged to bear the costs of publication of a reply which refers to actual assertions in the published advertisement. These costs will be calculated according to the currently applicable advertising rate. This applies only in the event that the publisher is obliged to print the reply.

5.4 Exclusion of competition cannot be guaranteed. Placement requests are subject to availability of space. The publisher reserves the right to change previous placements due to reasons related to the page layout; such changes shall not affect the validity of the order. The publisher likewise reserves the right to change branch-of-industry designations.

5.5 If the printed advertisement is wholly or partly illegible, incorrect or incomplete, the customer has a claim to price reduction or to a perfectly corrected replacement advertisement, but only to the extent to which the purpose of the original advertisement was impaired. If the publisher fails to publish the replacement advertisement within an agreed and reasonable time period or if the replacement advertisement is again flawed, then the customer has a right to a price reduction or to cancellation of the order.

6. Liability of the publisher

The publisher assumes unlimited liability for damages caused by his legal representatives or executive employees and for damages caused deliberately by other agents acting on his behalf;

in the event of a negligent breach of duty, the publisher is also liable for damages arising from injury to life, body or health. The publisher is liable for product liability damages in accordance with the provisions of the Product Liability Act. The publisher is liable for damages caused by his legal representatives or executive employees arising from the breach of cardinal obligations; cardinal obligations are the essential duties which form the basis of this contract, which were crucial for the completion of this contract, and upon the fulfillment of which the licensee can rely. If the publisher has breached these cardinal obligations due to slight negligence, then his liability is limited to the amount that was predictable for the publisher at the time when each service was rendered. The publisher is liable for the loss of data only up to the amount that would have been incurred for recovery of the data if proper and regular back up of the data had been undertaken. Further liability of the licensor is excluded.

7. Proofs; Calculation

7.1 Proofs will be provided only by request. The customer bears the responsibility for the correctness of the returned proofs. The publisher has the right to expect the corrections to be communicated to him within the period specified when the proofs were sent to the customer.

7.2 If no special instructions about the size and dimensions are given, the calculation will be based on the customary and actual printed height of the advertisement.

8. Invoicing; Delay; Voucher Copy of the Advertisement

8.1 If the customer has not paid in advance, then the invoice will be sent immediately or no later than fourteen days after the publication of the advertisement.

8.2 Unless a different payment period or prepayment has been agreed in individual instances, the invoice must be paid within the period specified in the price list. This period begins with the customer's receipt of the invoice. Any discounts for early payment will be granted as specified in the price list.

8.3 Interest and collection fees will be charged if the payment is delayed or deferred. In the event of a delayed payment, the publisher can delay completion of the current order until the payment is received and can demand prepayment for the remaining advertisements.

If there is reasonable doubt about the solvency of the customer, the publisher has the right, also during the running time of an advertising contract and without consideration of an originally agreed payment date, to make the publication of further advertisements contingent upon the advance payment of the amount and the settlement of outstanding invoices.

8.4 If so desired by the customer, the publisher will deliver a voucher copy of the published advertisement together with the invoice. Depending on the nature and size of the order, the delivered voucher copy will consist of tear sheets, full pages or complete copies of the issue that carried the advertisement. If a voucher copy can no longer be obtained, its place shall be taken by a legally binding certification from the publisher averring that the advertisement was indeed published and disseminated.

9. Cost; Price reduction

9.1 The customer shall bear the expenses of preparing ordered printing blocks, stencils and drawings, as well as the expenses of significant changes to the originally agreed versions desired by the customer or for which the customer is responsible.

9.2 In case of a contract covering several advertisements, a decrease in circulation can serve as the basis for a claim to price reduction if the average circulation specified in the price list or otherwise mentioned is not achieved in the overall average of the year beginning with the scheduled publication of the first advertisement or, in the event that no circulation volume is mentioned, if the average sold circulation (for special-interest magazines: the average actually distributed circulation) is less than the average sold circulation during the previous calendar year. A decrease in circulation is a shortcoming which justifies a price reduction only to following extents:

- 20% price reduction for circulation up to and including 50,000 copies
- 15% price reduction for circulation up to and including 100,000 copies
- 10% price reduction for circulation up to 500,000 copies
- 5% price reduction for circulation of 500,000 or more copies.

Additionally, claims for price reduction are excluded if the publisher has informed the customer of the reduced circulation so far in advance that the customer could cancel the order prior to the publication of the advertisements.

10. Classified Advertisements with Box Numbers; Documents; Storage

10.1 For classified advertisements with box numbers, the publisher will exercise the due diligence incumbent upon a prudent businessman to assure the safekeeping and timely forwarding of offers. Registered and express letters in response to classified advertisements with box numbers will be forwarded by normal post.

10.2 The publisher will return valuable documents without being obliged to do so. Letters which exceed the permissible DIN C 4 format (weight: 500 grams), parcels containing merchandise, books or catalogues, and small packages will not be forwarded and their delivery will be refused. However, in exceptional instances, acceptance of delivery and forwarding can be agreed if the customer pays the costs and/or fees incurred for same.

10.3 In the interest of the customer and for his protection, the publisher reserves the right to open and to inspect incoming letters or parcels in order to preempt or eliminate any misuse of box-number services. The publisher is not obliged to forward business proposals or brokerage offers. Printing documents will be returned only at the specific request of the customer. The obligation to keep such documents ends three months after the expiration of the order.

11. Place of Performance and Place of Jurisdiction; Applicable Law

11.1 In business transactions with merchants, legal entities or special funds under public law, the place of performance and the place of jurisdiction is the head office of the publisher. However, the publisher also has the right to sue at the court of law which is responsible for the region in which the customer's head office is located.

11.2 German law applies with the exclusion of the UN Sales Convention.
